

City of Las Cruces
Fats, Oils, and Grease Program
Grease Interceptor 120-Day Pump-Out Extension Application

Business Name: _____

Business Address: _____

Contact Name: _____ Title: _____

Phone Number: _____ Email Address: _____

Description of food manufacturing, processing, preparation, or service provided by the facility (attach menu, if applicable): _____

Reason(s) why your facility is requesting a waiver: _____

Method and/or equipment used to keep FOG (fats, oils, and grease) generated by your facility from entering your plumbing and the City's wastewater collection system: _____

By signing this request for a Pump-Out Extension, you understand that your 90-day pumping frequency is extended to no more than 120 days, as mandated by the City of Las Cruces Interceptor and Grease Trap Ordinance #2489. This extension is good while the business maintains the same ownership, process, food preparation, and menu. This extension is contingent upon the allowance of periodic unannounced inspections of your facility and/or your grease interceptor. You understand that this extension will be revoked if there are ANY changes to your facility's food manufacturing, processing, preparation, menu, or services provided (as stated above). If it is determined that your facility threatens, or has caused, an interference/obstruction which contributes to a FOG accumulation within the sewer collection system; or if your facility fails to comply with any of the terms and conditions of this extension, the extension will be revoked immediately. Once revoked, if your facility re-requests a Pump-Out Extension, you will be required to submit a new application.
